Double Back Pad Uses

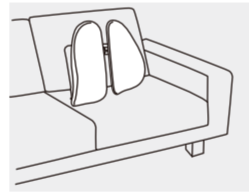

Perfect for office chairs.

Works with any vehicle seating, front or rear.

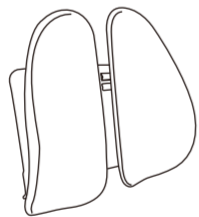

Suitable for public transit, train and airplane seats.

Suitable for sofa, chair etc.

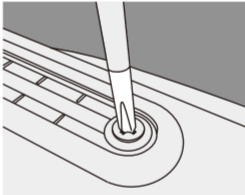

Ergonomic Double Back Pad

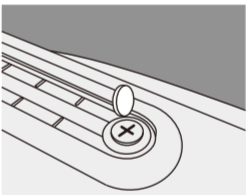

Introduction
Two-sided design adjusts to fit, provides open ventilation and comes with removable / washable cushion covers.

Instructions

Back height adjustment
Loosen the adjustment screw with a Phillips screwdriver or a coin. Slide the pad to a comfortable position and retighten the set screw. (Phillips screwdrivers are best as a flat head screwdriver may damage the screw.)

Phillips screwdriver.

Nickels and dimes.

Setting up the back pad
Wrap the elastic belt around the chair and position the pads as desired. Tighten the belt as needed.
